---

= Good Decisions  
& Quality Results

# REPAIR SERVICES

Some projects simply need repair.

**We never try to sell more work than you really need !**

During on-site repairs,  
we work around your  
activities & services  
creating minimal  
inconvenience or disruption.

Before

After

# RESTORATION

When damage is more complex, windows are carefully removed & transported to our studio for restoration.

We also repair wood and metal sashes, framing & trim.

Putty knife  
sunk to hilt  
in rotted sill

Preliminary sketch

Final product

Custom window designs from traditional to modern  
Meticulous attention to client's taste and budget  
Superior fabrication & craftsmanship  
Complete professional installation

# CONSULTATIONS

*CONFLICT-OF-INTEREST-FREE* services:

- Definitions of methods & materials
- Condition studies
- Bid uniformity evaluations ('apples to apples or apples to oranges?')
- Documentation services for archival recording
- Valuation assessments for insurance agents and claims

Most consultations can be completed by  
conference calls, digital photos and emails.

# PROTECTIVE COVERINGS

Each custom-designed installation includes:

- Detailed information for each type of covering available
- Helping clients choose the best covering to meet their needs
- Maintaining architectural and artistic lines
- Preventing heat build-up
